THIS IS PANACERA

WHERE OPEN VIEWS, INSPIRED DESIGN
AND RELENTLESS INNOVATION
COME TOGETHER.

Crisp, light-filled interiors. Signature skylights. Bold designs that merge indoor and outdoor living spaces. These are just a few of the uniquely distinct features that define the new Panacera series from Hatteras. Building upon the open concept of the award-winning 70 Motor Yacht, the new M75 and M90 infuse an inspiring range of global design influences to create new uses of living, dining and entertainment experiences – all enhanced and seamlessly connected by the innovative HattCON ship management system. It's exclusively available for the first time within the new Panacera series models.

Few things are more gratifying than having your expectations thoroughly exceeded. And this is only the beginning. Welcome to the new face of Hatteras.

MEET YOUR NEW CO-PILOT IN ADVENTURE.

Once again, Hatteras has set a new industry standard with the introduction of HattCON, its exclusive innovation in total ship management. Now available on select models, the Hatteras yacht navigation, ship management and yacht automation systems have now been fully integrated into a proprietary and seamless new interface that is leading the yacht industry. From the simplified smart interface to HVAC temperature regulation and lighting, total control is just a tap or swipe away – fully integrated into one intuitive interface, and mirrored through your smartphone or tablet.

BUILDING A LEGEND

TWO STRONG CURRENTS COLLIDE NEAR CAPE HATTERAS: PRIDE AND PERSEVERANCE.

At Hatteras, we're a product of the storied coastal waters from which we borrow our name. Unforgiving seas where, for hundreds of years, dreams were sacrificed and legends born. So when others say we're obsessed with over-engineering every detail, we know it is simply the right way to build a yacht. The uncompromising union of inspired design, breakthrough innovation and unmatched craftsmanship.

Our commitment began nearly 60 years ago when Hatteras founder, Willis Slane, envisioned a new breed of boat. One strong enough to tame the waves off Cape Hatteras. What followed was the birth of a legend. Beginning with the Knit Wits, the 40-foot fiberglass yacht that revolutionized the industry, Hatteras served notice that our yachts would now be the standard by which all others are judged – above and below the waterline. From that initial breakthrough to each innovative yacht thereafter, Hatteras continues to over deliver on every expectation. You see it in the obsessive pride of the men and women who build each legendary vessel. You feel it in the way the Hatteras hull cuts confidently through waters that lesser boats dare not enter. But more than anything, you witness it inside the ambitious souls who make Hatteras an expression of their own thirst for adventure.

For all those who celebrate a life without limits, we welcome you aboard.

THE HATTERAS EXPERIENCE.

DESIGNED TO TAKE YOU FURTHER

There isn't a single reason that Hatteras is the benchmark to which all others aspire. There are many. The confluence of proven construction techniques, focused engineering and innovative technology. The commitment to exceed every expectation. And above all, an experience that delivers on the promise of a life without limits.

DISCOVER MORE IN THE DESIGN

Hatteras involves owners at every stage of the design-build process. This includes an initial consultation at our headquarters in North Carolina to outline your wish list, including technology integration and choice of several amenity combinations. A dedicated team, led by a seasoned sales associate, will guide you through every step of the planning and construction process to ensure your dream is realized.

YOUR VISION BROUGHT TO LIFE

From our new Design Center inside Hatteras headquarters, our committed team will work with you to develop an interior plan that fully realizes your vision and reflects your personality. This includes the ability to personalize several features to your tastes. Everything from appliances and galley tile to furniture upholstery and wall coverings can be impacted by your choice of finishing packages.

UNPARALLELED INNOVATION

Our tradition of innovation includes a long list of patents, and with the much-anticipated HattCON Ship Management System in our Panacera series we continue to set new standards and lead the industry. Below the waterline, our breakthrough hull design, propulsion, exterior coatings and resin-infusion technology are just a few of the ways we define the Hatteras difference. Above it, that same level of quality, craftsmanship and design extends to all the details you find on board.

A GREATER COMMITMENT

The day the keys are handed over isn't the end of our relationship, it's the beginning. A multi-day orientation is offered with each purchase, including the ability to have members of the Hatteras team join you for portions of your maiden voyage. That commitment is also backed by an industry-leading 2-year Limited Warranty and a 10-year Structural Warranty, along with the peace of mind that comes from having direct access to your Hatteras team whenever you need assistance.
